Dr. Betty Meggers and Cliff Evans,  
U.S. National Museum  
Smithsonian Institution.  
WASHINGTON, D.C.  
U.S.A.

Dear Betty and Cliff:

Extremely sorry I had no chance to go to B.A. to see Betty's parents. I hope that they had not too hot and humid weather during their stay here.

Your letter of march 1, arrived some days ago. Do not worry about the possibilities of going to Barranquilla. I tried only a suggestion in case that someone would fail to go and was an open possibility of having that place, and it is perfectly O.K. the reason you are giving me. By ordinary mail I am sending a paper by Lafon on the Argentine archeology of today. According with him there are here two schools. One is "humanistic, philosophical good, etc.etc." This is the european school, his leader is Menghin. The other one, is bad, no philosophical, no humanistic, etc. etc. This school was bring to Argentina by influence of W.C. Bennett, its leader now is A.R.G. Read the paper and draw conclusions. I think that I have to do some thing. Do you believe that there is slight chance of getting some Institution of U.S. interested for a simposium of Archeology of S.A., especially on the southern tip to be celebrated hier in Argentina? I can get some money from the National Research Council of this country, and from University, but I would like to bring some archeologist from U.S. and that will require money.

Recently was celebrated in B.A. Congress of Archeology with a lot of money. The Lafon's group had the control of it and they invited several european scholars, all the expenses paid; so now let's bring the other school

I need that Betty give me some information as Executive Secretary of A.A. I would like to know how much I debt to for the subscriptions of American Anthropologist and to Antiquity. Perhaps both subscription already finished, but I can not find information among my papers. Please inform me to send the money order.

With the best wishes to you and Cliff my regards to your parents.  
As ever:

ALBERTO REX GONZALEZ.
