Dr. Betty J. Meggers and  
Cliff Evans  
Smithsonian Institution  
United States National Museum  
Washington 25, D.C.

Dear Betty and Cliff:

I just received your letter of August 29th. Yes, few weeks ago the Guggenheim communicated me that a fellowship was awarded to me, so I hope to have the great pleasure to see both of you again, and, by the way, my warmest thank for your assistance in getting the fellowship.

We planed to be in New York next March, but before we will spend one month in Lima, because I need badly to see peruvian material as much as possible, and also to visit some archaeological sites in Peru.

We will leave the children here with the grand parents, I will submit my thesis and will work in some researches, my wife will be dedicated to fine arts.

¿Where are you going for field work? To the Amazonas again? Any way we hope that you will be in the States next year.

As I do not have Collier's "Cultural Chronology and Change as reflected in the Ceramics of the Viru Valley, Peru" I will appreciate the copy you kindly offered me.

With my best wishes that you have had a pleasant time in Philadelphia, and an excellent future field work, with my thank for every thing reciban el afecto de su amigo:

ALBERTO REX GONZALEZ
