Happens thet the Guggenheim Foundation, of New York, has awarded me a ffellowship to travel to the States for one year mere. I will use that time working in some resear ches in Anthropology, and giving so me lectures. So I will see you and your family again, as in the old days, of my firts trip to the Union. But I need some information about many things. Will you be so kind in giving it?

1. How much I and my wife need monthly to live, renting a reom in in N.Y. and eating in cafeterias or so ?.
2. How much cost an amall two reom house in your neighborhoods?
3. How much is the cost of a private school for a girl of si year old? I would like to have she at the school from the morning te the evening.
4. There are State school where to send my daughter in the same con ditions,I means, from the morning to the evening?.

As you can see, I am preparing my trip, and I need to know if I will travel with my wife and my oldest daughter, Maria de la Soledad, that is now six years old. If the cost of life is to high now, I will go with my wife alone, living the children here. They will stay with the grandparents.

I am very interes ted in bringgin my daughter with us because will be an excellent chance to her to learn good english,
