Dear Betty and Cliff:

We just got your letter of January 1<sup>th</sup> and we see that Betty's parents are coming to Argentina, why both of you do not decided to join that trip?

Unfortunatly we are going to be here in Cordoba the whole month of February. Possibly in Cerro Colorado supervicing some digging that are going to make a group student. But any way, I will write to save relatives and friends of me in order to get Dr. and Mrs. Meggers around the city, unfortunately february is the worst time of summer, in Buenos Aires, very hot and humid, and every body get away from the capital. To day I am writing to all of whom I think could be in Buenos Aires at the time of the onural of Betty's parents. As soon I have concrete news I will send a letter with the best information I can furnish and please tell them that do not hesitate to write us about anything we can do.

Too bad what you have informed about your house. It was so nice and so comfortable that really we realize how you feel now Hope in few month the new place will you make to forget the old one.

With the best wishes:
