

Córdoba, January 7th, 1960.

Dr. Robert Heine Geldern  
President of the 54 Internationaler  
Amerikanisten Kongress  
Institut für Völkerkunde  
Reutemühlweg 2  
Wien, Austria

---

Dear Dr. Heine Geldern:

Thank you very much for your letter of December 15.

Yes, I have had send my enrollment as a member of the Congress, but unfortunately I did not have solved yet the problem of travelling expenses.

According with your suggestions I tried Wenner Gren, but they just told me that, they have too many request to attend the Congress, so they decide not to give assistance for any type of Congress or similar. They, will help, instead, to visit archaeological sites or similars.

Here the university could perhaps give a very small amount (no more than 200 american dollars), because the very bad economic situation of this country. So, perhaps, the only possibilities could be the help of Unesco, or a similar Institution.

I am going next Friday to work for several week in the archeology of N.W., in Tafi valley.

With the best wishes of a happy New Year, and a very successfull Congress, I am your sincerely:

Alberto Rex González
