Dear Dr. Tax:

Usually I go to my archaeological field work on our summer vacations times (December-February). This year I went to work on "Cerro Colorado", on the border of Santiago del Estero province. On my return I have found in the Institute your letter with a copy of seal's article on systems in North American Archaeology. Indeed I would like to make a commentary on it, but I believe that now is too late, as the dead line given was 15th. January. Please tell me if there is yet a possibility. Very sorry, and for give me for my involuntary lack of answer.

I am sending today to you a transference of 10\$ (american dollars) by The first National City Bank of New York N° 1971, in payment of C. Anthropology 1960- 61- 62, plus the suscription to the Werner-Gren publications. The last one I have received is number 27: G.M. Foster, Culture and Conquest. New York 1960.

Yours sincerely:

ALBERTO REX GONZALEZ.
